Spare Parts, New Starts

Marty Malkesian

Mowers, small engines, sheds and lawn furniture on grass

The wheels of industry grind to halt, stalled and lifeless. A new plug, a careful cleaning and one tug – mechanical life is born anew.

This tribute to small engine repair is breathtaking in its reach. The organization, the clean lines of mowers in a row, the neatly mowed grass, together form a soaring temple to the art of small engine repair and mechanical life restored.
